The Problem

- **Displaced families.**
- **Cries for peace in Warzones.**
- **A world searching for hope.**

Caritas Australia wanted a way to amplify these voices globally — and reach new supporters and convey their message to the pope Leo XIV.

The Implementation

With our Lead Campaign setup, people could:

- **Write messages of solidarity on Meta Forms.**
- **Share them instantly online.**
- **Enable Caritas collate them for Pope Leo XIV.**

A campaign that's both spiritual and strategic.

Here's how we **made it happen**

- People filled in **Facebook Lead Forms** with their messages of solidarity.
- Data flowed into **Salesforce**, then through **Zapier** for dedupe checks.
- Messages were sorted into **different marketing journeys**.
- Clean data was passed on to the **Telemarketing Agency** for outreach.
- Data looped back into Salesforce for a **complete 360° view**.

A seamless flow that's both empathetic and strategic.
